

Make your own...

FOSSIL DIG

Create a fantastic mini fossil dig to practice your fossil finding skills.

What you need:

Small plastic crate or baking tray with shallow sides

Adhesive pads or sticky tack

Small rocks

Toy dinosaurs or fossils

Play sand

Paintbrushes

Step 1

Put some of the sticky tack on the bottom of your toy or fossil and press your toys or fossils down onto the base of your tray.

Step 2

Carefully put your play sand into the plastic tray. Try and have enough sand to cover all of your objects.

Step 3

Using a dry paint brush, brush away the sand and discover your fossils. You can set this up for someone else too. If you know the names of your fossils you can make information cards so that the other person can match the right fossil to the information card.
